MET BY SARGENT

Atty-Gen. Sargent, who is spending a vacation in this, his native State, met the special train at Burlington and accompanied Mr. and Mrs. Coolidge to Plymquth.
Slowly, Mr. and Mrs. Coolidge approached the old farmhouse and paused on the porch while news photographers recorded the scene. Then they entered the house for a quiet rest among old surreundings. The Attorney-General soon after their arrival returned to Burlington.

The warmth of the greeting here was characteristic of popular receptions given the President during his train ride of more than six hours today across Northern New York State, along, the shores of Lake Champlain and in Vermont. Crowds were gathered at every station and werb rewarded repeatedly by the appearance of both Mr. and Mrs. Coolidge on the observation platform to acknowledge the applause:

While at Burlington, the birthplace of Mrs. Coolidge, the greeting swelled into an ovation for the first lady of the land with the President standing at her side smiling with delight. Hundreds were gathered on the station platform, including many young women students at the summer school of the University of Vermon't, the alma mater of Mrs. Coolidge. The city officially presented Mrs. Coolidge. The city officially presented Mrs. Coolidge as ones and Mrs. Coolidge joined in the singing.

Girls Have to Cover Up

LONDON, Aug. 4. (Exclusive)—
King George has been horrified at the girls' dresses at the Cowes regatta, according to a story current here today. Long sleeves and longer ckirts have blossomed suddenly among all women, even the young girls or the exclusive circles at Cowes.

The Cowes regatta is the smartest yachting event in the world, and Cowes is crowded with fashionables. The King endured the spectacle of modern dresses the first day of the regatta. Yesterday, it was reported, the edict went forth.

Today every woman in the court in the girls of the court circle, or aspiring to it, appeared in long dresses. Queen Mary appeared in long dresses.

Missouri Nominates Wets in Both Parties for Senatorial Seats; Walton Loses in Oklahoma

TOPEKA (Kan.) Aug. 4. (P)-A crushing defeat was dealt the Ku Klux Klan in Tuesday's primary in Kansas, with returns from nearly three-fourths of the State tabulated tonight showing all Republican candidates opposed by the order nated by comfortable majorities. Three Republican Supreme Court justices, members of the court that handed down a decision ousting the Klan from the State, Asst. Atty.-Gen. Smith, seeking the Republican nomination for Attorney-General, and Secretary of State Ryan, asking Republican renomination, all had overcome the opposition of the Klan on the face of the returns.

The only race in doubt was that for, the Democratic gubernatorial nomination, in which the lead has shifted back and forth between former Gov. Davis and Donald Muir, a young attorney. Late night returns in 1881 precincus gave Muir a slight lead over the former Governor. The vote was: Muir, 18,226; Davis, 18,384.

For the Republican nomination for Secretary of State, Ryan, incumbent, was leading. The vote in 1916 precincus gave for Democratic Senator, long term: Hawe, 165,280; Cockrell, 83,597; Young, 23,139.

To the race for the Republican for Secretary of State, Ryan, incumbent, was leading. The vote in 1916 precincts gave for Democratic Senator, long term: Hawe, 165,280; Cockrell, 83,597; Young, 23,139.

In the race for the Republican for Secretary of State, Ryan, incumbent, was leading. The vote in 1916 precincts and termination for Attorney-General, William A. Smith had a lead of more than 6000 votes over the field in 1922 precincts. The vote was: Smith, 48, 262; Max Anerson, 48,980; Frank H. McParland, 27,813; J. K. Rankin, 20,-170, and C. H. Quier, 15,116.

In the Democratic Senatoral race returns from 1906 precincts showed that Charles Stephens Columbus, had lost some of his majority over George McGill, Wichita. The vote in 1908 precincts gave Stephens 12,376 votes, and McGill, 10,386.

"I express my adhesion and respect to you and hope that in obeying the law I shall remain in charge of my church."

FOR MEXICO

"The clerical opposition can do nothing against the elevated and wide cultural program of the executive. The Mexican people are receiving with application and satisfaction the government's enforcement of the law."

With the exception of "a few minor outbreaks at Cuidad Gusman, Torreon and Irapuato, which were easily quielled by the police," the statement said, "the churches all over the nation had been transferred quietly to the municipal citizens and committees." The statement characterized President Calles's program as "the appearance of a magnificent new culture developing throughout the world, which will destroy the last redoubt of the conservative classed against justice and progress."

CONDEMN ACCEPTANCE

The episcopate announced receipt of a delayed telegram from the Holy See condemning the religious regulations in Mexico or sity act by the Catholic authorities which might be interpreted as acceptance of them.

The telegram was dated July 22 and was delayed because it was necessary to communicate through Mgr. Caruana, who recently was expelled from Mexico.

The movement among Catholics to exert the pressure of an economic boycott against the religious policy of the Merican government is plainly workying business circles. Although there have been no serious outward evidences of any economic boycott in Mexico City, reports from elsewhere in the republic state that the volume of buciness has been tangibly reduced in some places.

Meanwhile the government, with its supporters in its present stand on the religious laws, and the Roman Catholic episcopate are both standing firm in their respective positions.

BANK BUNORED HIT

Uncertainty over what is actually Uncertainty over what is actually going on in Mexico with reference to the economic boycott has caused a flood of rumors which usually prove unfounded. One of these rumors was that the Bank of Mexico is suffering because of the withdrawal of deposits of large sums of money by many Gatholics. Government officials deny that this is true.

President Calles replied as follows:

"I have ordered the Mayor to hand over your church to you. I must congratulate you for your stitude of obedience of the law and for your patriotic spirit."

The Department of the Interior in a statement denies that Secretary Tejeda and Bishop Diat, secretary of the Episcopate, conferred for a settlement of the religious question or in regard to a conciliation conference.

LUCBAN (P. I.) Aug. 4.—Fireworks of both the gun-powder and oratorical variety greeted Col. Carmi Thompson during a two days tour of Tayabas Province, one of the richest States of the Philippides.

The climax came here at dusk, when, after the entire populace turned out in response to the Cathedral bells' notes of welcome, a big crowd gathered to the plaza and the municipal president, Senor Arada, and Miguel Deveza, urged Col. Thompson to tell the United States clearly that all Filipinos desire independence.

SPEAKERS APPLAUDED

Fire crackers and skyrocyeus had greeted the party on its entrance to the city, but this was nowhere near systartling as the applause that greeted the speakers.

HEN Lou Daro signed up John Pesek and Nick Lut-ne for a muscle-wrenching contest to take place about a week hence he arranged for one of the best bouts from the standpoint best bouts from the standpoint of action, that could have been suggested. Pesek is regarded by a whole lot of people as the greatest wrestier of his weight that ever lived and he is certainly the possessor of a remarkable record. He is tremendously fast and strong and experienced and is regarded as Joe Stecher's greatest rival. In the matter of speed and strength he will have nothing on Lutze but the bout will be a question of Pesek's superior experience against Lutze's youth and aggressiveness.

While the boys were busy signing up the smateurs to turn professional somebody should have persuaded Bud Houser to try wrestling instead of tooth pulling. The ex-Oxnard strong boy is one of the fastest and strongest men of his weight that ever lived and could easily be tough enough about wrestling to bother a lot of the big fellows. LEADERS IN

The big leaguers are certainly getting bumped off by the lesser lights of the tennis world these days. Nobody who saw Harada, the Japanese demon, out here a few weeks ago, would have believed that he would beat Bill Johnston, heat or no heat. So far but of the first four ranking tennis stars Vinnie Bichards alone has avoided defeat at the hands of a lower ranking player, Johnston having joined Tilden and Williams in meeting a surprise defeat.

Which reminds us that Bill Pickins doesn't want to be forgotten in the Lenglen matter. He takes the trouble to wire all the way from the East. "The definite contract entered into by Pyle with Lenglen was but carrying out the terms of the tentative agreement I made in April, yet some Los Angles people thought my ment I made in April, yet some Los Angeles people thought my trip was a joke. This is the be-ginning of a new era in tearing the mask off amateurism. Hoff should have had Pyle for a man-ager."

BILL JOHNSTON IS ELIMINATED

(Continued from First Page) Tilden in the metropolitan semifinals has week in straight sets, was prepared with a well-timed driving attack to take advantage of Johnston's lack of practice today. He stroked powerfully and accurately, while Johnston showed only rare flashes of his remarkable match-playing ability, his drives for the corners dropping a tantalizing inch or two out of court, or looping into the net.

After the oriental star had captured the first set, Johnston opened the second with a whirlwind rush, advancing to the net at every opportunity to volley and smash with olding precision. He won the set imprecision. He won the set imprecision.

CLEVELAND. Aug. 4. (P)—Cleve-land took the first of the series from New York, 4 to 2. Unle winning his fourth victory of as many starts against New York this season. While Ruth made two singles in four times up. he struck out with the bases filled and two out in the second and fanned with none on in the sighth. Both of Hoyt's passes were productive of runs. While New York made four errors, only one was costly, permit-ting Cleveland to score a run in the third inning. The score:

There were four circuit clouts in all, Monroe, Hoffman, and Frederick all getting theirs in the ninth. Monroe's drive cleared both the screen and the bricks in right field, it being about the fourth time that the stunt has been done at Wrigley Field. Hoffman's clout hit on top of the left field wall, bounced up in the air, and then disappeared on the outside of the barrier.

(***)—Bill Barrett's home run with the bases loaded in the seventh inning broke a 3-to-3 accre and enabled Chicago to defeat Boston, 7 to 3, in the first game of the series. After Todt's homer with a man on had given the visitors a three-run lead, Slim Harriss weakened and Chicago tied the count in the sixth by bunching hits, Barrett driving in two runs with a double and acoring the others on Schalk's single. The victory was the fourteenth for Ted Lyons this season. The score:

The Sacs started in the second round where they left of in the first, Keating opening the inning with his homer over the bricks. Hulvey threw out Kopp, but Monroe singled to center and stole second. Knight's double to left scored Monroe and caused Hulvey to retire in favor of Murphy. Davis greeted Murphy with a single to center that brought Knight over. Osborne hit to Kerr and all hands were safe when Johnny threw wide to Lee for an attempted force-out at second. Hoffman's infield out moved the runners along and then came Mervin Shea with a two-base clout against the left-field bricks that scored Davis and Osborne, giving the Solons five runs for the inning. French grounded to Kerr for the third out.

PICK UP TWO MORE

The Sacs picked up two more in the fifth when Keating walked, Kopp doubled, and singles by Monroe and Davis brought the first named pair over the plate.

The rest of the scoring took

over the plate.

The rest of the scoring took place in the ninth. Kopp's single and Monroe's homer gave the Solons half of their quartet, while a walk to Osborne in front of Hoffman's circuit wallop produced the other two.

Kerr opened the Hollywood ninth with a double off Knight's shins, but Lee filed to Hoffman. Peters scored Kerr with a hit to center and Fullerton, batting for Murphy, also singled. Prederick then drove one over the screen to account for the Stars's four in the final frame.

UMPIRE GOES HURT UMPIRE GOES HURT

Umpire Eddie Goes was hit on the right shoulder by a foul tip from M. Shea's bat in the sixth inning and had to retire. A physician was summoned from the stands and announced that the nerve in the shoulder had been paralyzed but that the arbiter would probably be able to work today. Les Cook went in and umpired on the bases in the last four frames and didn't have to kick a single athlete from the contest, so well received were his decisions. Score:

RABBIT PUNCHES HOLLYWOOD WINNERS TO

HERE'S something funny about Jack Silver's sudden friendship for Tod Morgan, which developed so rapidly that the hook-nosed San Francisco boxer called off his match with the junior lightweight champ in the north August 16. It's puzzling also to Ancil Hoffman, the promoter, who happened down our way from the north to view the fracas between Morgan and last night. Hoffman says he can't explain why Silver went to work for three days and then suddenly discovered the tender

state of his feelings for Morgan. However, Hoffman is not worrying about the loss, if any. He press," boy who recently knocked out cominy adams in Chicago and beat Eddie Kid Wagner of Philadelphia, in reserve, which in our humble opinion affords the promoter of the new Monarch club much juicier plum than a Silver-Morgan scrap. Well, well, if we haven't got another one of those good-looking postcards from Jack-Doyle. This one apparently comes from Italy as far as our limited knowledge of the noble Italian language permits us to judge, and it says:

We agree with the gentimean who writes in to say that the Babe Herman of featherweight boxing fame is not the Babe Herman who used to play first base for Glendale High School, graduated to the Coast League and thence to Brooklyn. The correspondent at Alhambra who dug up a story that Herman, the boxer, and Herman, the baseball player, are one and the same person was slightly off his base. Herman, the boxer, enjoys the offstage name of Herbert Souza. The ex-high-school baseball player was also a jootball player and weighed something like 180 pounds. His featherweight days were probably passed when he was in grammer school.

The winner of the main event at the Hollywood American Legion stadium tomorrow night which features Paul Demsky and Paul DeHate will in all probability get the winner of the Dick Hoppe-Charley Rosen fight which takes place next week.

The fighters have practically agreed to the match and they will come to terms after Hoppe and Rosen have met. Paul Demsky remains a favorite over DeHate simply because he is a better boxer. The main event may and in a knockout as DeHate has a terrific sock.

Bert Collma has been schooling DeHate in boxing for a month. Those who were surprised to see the Compton boy make such a good showing against Jimmy Duffy didn't realize that it was Collma who tutored DeHate.

Paul Demsky has one more fight at Hollywood after he faces DeHate tomorrow night. After he lives up to his contract he will head East as many offers have been made the Australian on the strength of his victories over Eddle McGovern and Rosen

The Name Means Everything

RIGIDAIRE was given its name to distinguish it from all other makes of electric refrigerators.

Back of that name are the engineering resources of General Motors, and the guarantee of the world's largest builder of electric refrigerators.

Under the name Frigidaire more than two hundred thousand electric refrigerators have been sold to home owners and industrial users.

The nameplate is placed on every Frigidaire mechanical

unit and every cabinet to identify that product—and all the inventive genius, the precise mechanical construction, the features that are exclusive to Frigidaire are represented by that one word-a trademarked name that cannot be used on any other electric refrigerator.

When you consider an electric refrigerator and want those qualities that have won leadership and reputation for Frigidaire—be sure you get a Frigidaire.

NEW ARREST IN PASTOR SLAYING

Vestryman Ordered Held Without Bail

Name Involved in Murder of Hall and Mrs. Mills #

Negress Sought as Witness in New Jersey Mystery

New Jersey Mystery

NEW YORK, Aug. 4. (Exclusive)—
Asst. Atty.-Gen. Simpson tonight ordered the arrest of Raiph V. Gorsline as an accessory to the murder of Rev. Edward W. Hail and Mrs. Eleanor R. Mills who were found slain four years ago on the outskirts of New Brunswick, N. J.

The special prosecutor issued his instructions to the State troopers at 9 p.m. and men were sent out at once to seek Gorsline at his home in New Brunswick. He is a vestryman of the slain clergyman's church and was a member of the choir of which Mrs. Mills was leader.

At the same time Mr. Simpson issued orders for the arrest of Mrs. Nellie L. Russell, negrees. Mrs. Russell was the author of an affidavit in the first investigation four years ago which did much to discredit the story of Mrs. Jane Gibson, the "pig woman," who swore that she saw a woman in gray and two men at the scene of the crime.

Mr. Simpson, directing that Gorsline be held without ball, instructed the State troopers not to accept less than \$10,000 ball for Mrs. Russell. The arrest of the negress, said Simpson, was necessary as she was a material witness.

The sudden and dramatic move by Mr. Simpson came after a day spent in pursuing the evidence in the case. He questioned detectives engaged in the first inquiry and from one of them obtained an affidavit asserting that Mrs. Frances Stevens Hall, now at liberty in ball of \$15,000 on the charge that she committed the double murder, changed her story of her movements on the morning after the crime.

The special prosecutoralso obtained the names of two men, asserted to

were revealed by a woman who visited the special prosecutor at his Jersey City office. In response to her request the prosecutor shielded her identity. She explained her four-year delay in coming forward by saying that she feared the treatment other State witnesses received at the hands of the initial investigators. Gorsline, whose arrest was ordered on evidence as yet undisclosed by Mr. Simpson, was mentioned frequently in the days following the finding of the bodies of the siain rector and his choir leader. But he furnished an ailbi for his movements on the night of September 14, 1922, and indignantly defended himself at that time against "vile innuendoes and veiled accusations."

against "vile innuendoes and veiled accusations."

The attention of the authorities was directed to Gorsline by reports that a green touring car had been seen backing out of De Russey's lane, a tiny thoroughfare bisecting the Phillips farm upon which the bodies were found. The green car, never identified or traced, shobbed up time and time again in the investigation as having been seen in the vicinity of the crime locale shortly before the hours between which the killing 's believed to have occurred.

Coupled with the green car were reports that Gorsline knew of the intrigue between his rector and the choir leader. The name of a New Bunswick woman, also a communicant of St. John the Evangelist Church, was coupled with Gorsline's as having knowledge of the affair.

Gorsline, who is thin, rather gaunt and more than six feet in height, is married and the father of one child, a daughter. When he was interviewed four years ago when the fever of the hunt was at its height, Gorsline talked frankly and freely to reporters.

MIAMI (Pla.) Aug. 4. (P)—Baron dichael Royce-Garrett is charged with mansalughter in a capias which served as yet, the Sheriff annous

served as yet, the Sheriff announced last night. As long as friends of the baron are willing to pay expenses incident to his stay in a hospital here the capias will not be served, the Sheriff said.

The capias was issued on information filed by the Assistant County Solicitor in which the solicitor stated that he had reason to believe the Baron entered into a suicide pact with the Baroness. The Baroness leaped to her death from the eighteenth floor of the Everglades Hotel here last Friday night.

Unider the Florida law, an agreement to enter a suicide pact constitutes manslaughter. If convicted the Baron will be liable to a maximum fine of \$5000 and a sentence of two years in the penitentiary.

The Baron has been in the hospital since he collapsed following the Coroner's inquest into his wife's death. The jury exonerated him of blame in connection with his wife's death. For the first time since he was ar-

THIS is the outstanding scientific discovery of the twentieth century.

No room is left for unbelief. Experiments prove beyond the shadow of a doubt that universal matter and energy — all forms of life — exemplify one great, all-pervading force — electricity. Obviously, the discovery that life is indissolubly associated with electricity has upset many theories of disease among human beings. Whereas, in the past, physiologists sought the cause of symptoms in a body they thought composed merely of cells made up of atoms, they now seek the cause of such symptoms in a body composed of cells made up of atoms, such atoms, however, in turn, divisible into electrons. In other words, physiologists are now brought by scientific discovery, to the consideration of vital phenomena in a body, the smallest part of which is an electric charge, and the activating, energizing force of which is an infinite number of such charges, positive and negative, attracting and repelling one another, whirling eternally—electricity in flux.

A heard of Other Burton Robert Charles, was one recentists, as to what constitutes life and energy is right.

Ahead of Other Physiologists

Ahead of Other Physiologists

Years ago he commenced the study of disease from this point of view. Throughout the time which has since elapsed, he has been constantly at work proving his theory by the trial of countless experiments in the laboratory, and by actual practice on living subjects who have come to him for help.

Electricity Is Life

Charles Treatment of Disease Quite New!

Now, Burton Robert Charles knows he is justified in offering a new and marvelous form of treatment to all who are afflicted with disease or disorder of any kind: This treatment is a combination of electro-magnetism (flowing electric energy), radio-activity (radium emanations), and temperate heat (electrically generated). These three therapeutic agents are embodied in one appliance which Charles has named the "Perfectocoi".

Charles has named the "Perfectocoil".

sailing from New York on a holiday."
Mr. Cochran said, "I spoke with enthusiasm of the earnings, management and prospects of the General Motors Corporation."

"I authorized no statement of any kind as to the future price of the stock, which obviously no one can foretell."

When Mr. Cochran sailed last Saturday, General Motors was selling at 189 1-2, where it closed the week for a gain of more than 23-points. When the alleged interview was published Monday speculation in the stock ran riot, reaching a climax with the establishment of a new high record above 214 today. Following the announcement of the denial, the shares broke to 207, starting a reaction in other sections of the market.

Take the case of a life insurance solicitor, He will go out and insure, say, one man in an office where ten are employed. The service he gives this one man, the consideration and courtesy which he shows him, cause the buyer to mention to his friends that So-and-So is a good man to go to for life insurance.

The solicitor drops around a month later to say "Hello" and his former customer tells him that Jack, at the other end of the room, has been talking about life insurance.

A week later a policy is delivered to Jack, who by this time has interested two of his friends in life insurance.

So it goes, one sale leading to another, provided that goodwill is created at each point of contact by means of courtesy, honestly, consideration, service.

Demand for finished steel is expanding. Purchases by automobile builders are believed to be heavier than is generally realized. The Ford Motor Company now is turning out 7800 automobiles and 350 tractors daily on a five-day week basis. Farm implement makers are preparing for heavier business in the fall. Wire products with the possible exception of woven fencing are in greater demand than is customary at this time of the year.

FARM MODERNIZED We inspected a new barn, a model building of most modern design and equipment. The son had planned it and supervised its construction. There was a fine herd of Holstein cows and a complete dairy. Everything that could be done by machinery was provided for with machines of the

"The boy is a clever mechanic," the farmer said. "If a machine will do

In your will, you expect, no doubt, to bequeath to them, as to your son, an equitable share in your estate. And so your, diream of your son owning the whole place is spoiled. Of course, he might arrange to buy out his mother's and sister's share. But there might, be complications; your daughter might be married. It might be hard to settle on a price or to borrow the money to buy out. Have you ever thought of solving the situation with life insurance?"

"How do you mean, with life insurance?"

"What is the farm worth—land, buildings, stock, crop and tools, machinery and everything?"

Stocks of the Standard Oil group of companies have proved to be excellent long-term investments. In fact, few securities have afforded owners a larger yield over a period of years, and yet throughout their entire histories concerns identified with the Standard Oil interests have been noted for their conservatism in the matter of dividend payments.

Jenks, Gwynns & Co. have prepared a special analysis on Standard Oil stock in each of the thirty-three segregated companies on January 1, 1912, who retained all stock dividends an exercised all subscription rights, received during the fourteen years to January 1, 1922, an average annual income of 16.36 per cent on his investment. In addition the marker value of his holdings during that period increased 734 per cent.

\$3,500,000 Jersey Central Power & Light Company

First Mortgage and Refunding Twenty-Year 51% Sinking Fund Gold Bonds, Series A

Dated February 2, 1925

Due February 1, 1945

The issuance of these bonds has been approved by the Board of Public Utility Commissioners of New Jersey

The Company agrees to pay interest without deduction for any normal Federal income tax not exceeding 2%, which the Company or Trustee may be required or permitted to pay at the source, and to reimburse the resident holders of these bonds, if requested within 80 days after payment, for the mill tax in the States of Connecticut, Pennsylvania, Maryland and District of Columbia at rates not exceeding the rates in each case as existing on February 2, 1925, and also for the income tax, not exceeding 6%, on the interest thereon in the State of Massachusetts. Tax exempt in the State of New Jersey.

Mr. A. E. Fithin, President of the Company, summarizes his annexed letter as follows:

BUSINESS: Jersey Central Power & Light Company was formed under the laws of New Jersey, with the approval of the Board of Public Utility Commissioners of New Jersey, by the merger of several public utility operating companies distributing electric light and power service to 179 communities, and gas service to 57 communities in northern and eastern New Jersey. sey. A subsidiary company supplies water service in Lakewood and vicinity. The territory served, which includes a portion of the great Metropolitan district tributary and suburban to New York City, as well as a section of the New Jersey coast communities, has an aggregate population in excess of 314,000, and includes Morristown, Summit, Ocean City, Wildwood, Lakewood, Spring Lake, Long Branch, Asbury Park, South Amboy, Red Bank, Millburn, Dover, Boonton, Keyport, Red Bank and Freehold (county seat,) Atlantic Highlands, Toms River

PROPERTY: The electric system includes steam electric generating stations with a total installed capacity of 54,300 h.p. and 231 miles of high tension transmission lines, with distributing systems aggregating 2253 miles of line serving 47,615 consumers. The gas properties include generating plants with a daily capacity of 755,000 cubic feet and 398 miles of gas mains serving 30,696 customers. During the year ended June 30, 1926, 74,520,398 kwh. of electric energy and 1,108,866 cubic feet of gas were generated.

> EARNINGS Gross Earnings......\$5,395,241 Operating Expenses..... 3,012,189 Annual Interest requirements on Mortgage Bonds.......... 1,095,325 Balance\$1,287,727

Net Earnings Over 2.17 Times Annual Interest Requirements on Total Mortgage Debt Outstanding

The above earnings do not fully reflect economies resulting from interconnection of gas and electric properties recently made, or from the expenditure of \$3,000,000 made on the properties during the past twelve months.

PURPOSE OF ISSUE: These bonds are being issued to reimburse the Company in part for expenditures in connection with extensions and additions to the plants and properties, and also for the erection and completion of a generating plant at Whippany, New Jersey, known as the Whippany Power Plant, and comprising substantially the installation of 20,000 KW., with the necessary auxiliary equipment.

SECURITY: Upon the completion of the additions referred to above in respect of which these bonds are being issued, these bonds outstanding to the amount of \$17,000,000, including this issue, in the opinion of counsel, will be secured by a direct first mortgage on electrical power, light and gas properties with a depreciated valuation of \$15,598,546, and a direct mortgage subject to \$3,206,500 divisional bonds on the remaining properties, with a depreciated valuation of \$9,198,089. In addition, they are secured by the deposit with the Trustee of all the bonds and stock of the Lakewood Water Company, with a valuation of \$1.193,670. These bonds and underlying bonds aggregating \$20,206,500, will, therefore, represent less than 78% of the total value of physical properties of \$25,990,305. 78% of the total value of physical properties of \$25,990,305.

MAINTENANCE AND SINKING FUND: The Deed of Trust provides for a maintenance and sinking fund, under the terms of which the Company and its subsidiary shall expend not less than $12\frac{1}{2}\%$ of their gross operating revenues from electric, gas and water business on maintenance, retirement of divisional bonds and bonds issued under this mortgage and additions and betterments against which no bonds may be issued, and further provides that, from such fund, an amount, annually equal to $1\frac{1}{4}\%$ of such gross operating revenue or 1% of the principal amount of Series A bonds, at the time outstanding, whichever is less, shall be used for the purchase and retirement of Series A bonds at not exceeding the redemption price.

BOND QUOTATIONS

NEW YORK, Aug. 4. (P)—The bond market recorded another day of generally steady but featureless trading. Although there is an apparent lack of public interest, tife market is not suffering and prices are holding well for the most part. The inertia seems rather unevenly divided, so that there is neither pressure from the selling nor the buying side as regards the

a slight increase, but Rhinelbe Union 7s and Saxon Public Works 7s were lower. Mexican issues continued their recovery.

In the domestic-corporation bonds Brooklyn Union Gas 5½s were in unusual demand, in company with the stock of that company, mounting 1½ points on a heavy turnover.

Some interest attached to the bonds of the Chicago, Milwaukee and St. Paul Railroad, which, with one exception, were fractionally higher. The apparent demand for the bonds was taken to reflect a hope in the minds of investors that the receivership for that road would be ended soon. Practically all the junior bonds of the road sold today at the highest prices since the receivership started. Interborough Rapid Transit issues were strong in response to a favorable earnings report for the fiscal year quied June 30, made public today.

Federal Court here by the adminis-trator of the estate against L. M. Willcuts, Collector of Internal Reve-nue for Minnesota.

The complaint asserts that the money was collected illegally by the government, and that part of the tax—\$1,130,616.08—was collected under duress and under the protest of the plaintiff and to avoid additional penalties and costs.

The contention is made by the FRESNO, Aug. 4. (Exclusive)— Fire, believed of incendiary origin was

Purchase from Rindge Ranch Abandoned for Time

In accordance with its policy of acquiring beach frontage at reason-able prices for public use, the Board ile of ocean frontage at Manhattan e used as a public park and play-

temned a quarter mile of beach trontage at the mouth of Santa Monca Canyon, which is now being given

to the public use.
"We are buying beach property in order to preserve as much of the beach as we can for public use," stated Chairman McClellan of the Board of Supervisors yesterday. "The beaches are rapidly being commercialized and taken up for private exploitation and the board feels it is for the public benefit that at least some of the frontage be acquired while prices are still grithin reach." The Manhattan Beach property extehds for 1814 feet along the ocean and is 156 feet deep. The price is \$75 per front foot. The county plans to turn the projected public park and playground over to the city of Manhattan Beach for administration, thereby saving administration costs. The ordinance will be advertised for thirty days, at the end of which period the purchase will be made. County Counsel Mattoon announced yesterday that the project to acquire by condemnation certain beach frontage of the Rindge ranch has been abandoned, temporarily, at least, because of the high price which, it was feared, might have to

Thursday -- Today Another Clearance Episode at Bullock's

Every section again well prepared with Clearance values, because the spirit of Bullock's August Clearance is store-wide in its scope and enthusiasm-

One should but tabulate one's needs and come to Bullock's expecting to save - thousands have shared with a vigor never so inspiringand still Clearance stocks are overflowing every corner-

This is Bullock's "One Sale of the Year"—it is an event of great significance because it clears away Bullock's own stocks at deep price reductions-

It provides thousands and thousands of dollars' worth of splendid merchandise from other sources—at equally worthwhile savings-

And most important of all, every item is measured by Bullock's standards of Quality. Sincerity and Satisfaction are as much a part of Clearance as all of Bullock's activitiestoday-Thursday-at Bullock's.

tive of the duel man fought with the sea to reclaim the lost submarine E-51.

Sunk on September 25 after her collision with the City of Roma, the S-51 lay on the ocean bottom off Block Island. Only three of her crew of thirty-seven had been rescued, the rest were dead in their steel tomb at a depth of over 180 feet.

As described by Lieut, Elisberg, who had charge of the raising of the vessel, no time was lost in preparing for the work. Every effective salvage device known to the Navy

effective salvage device known to the Navy was called into requisition, including great steel pontoons, enormous chains, powerful electric lights, intricate air-driven tools and torches that burn through steel under water. Much of the gigantic task was done

during tempestuous storms. Against the fury of the elements man has no weapon but his own powers of invention. In the case of the S-51 these forces had to be aphand and the sailor's canny craft. It was Homeric work. While landsmen were lolling at their ease in big leather

chairs at their clubs, sporting on the golf links or motoring along the smooth boulewards these heroes of the sea were risking their lives daily for months, removing submerged weekage, boring their way through steel decks, wriggling like contortionists among mazes of machinery, now and again coming in ghastly contact with one or more of the dead crew and opening and closing compartment bulkheads, crawling into places where, if they had become jammed, it would have been impossible to rescue them. It required five days' work to clo

No deed ever performed in the heat of battle can compare with Francis Smith's bravery when, fire hose in hand, in the silent depths of the ocean, he washed the first tunnel under the submarine that a chain might be pulled through it. After the chains were in place and the

pontoons were floating high with their Ti-tanic burden there was another fight with the sea when a storm arose and the waves rolled high over the big cylinders. How Courad would have liked to tell the story of that storm!

No wonder that, after seven months of Herculean labor, when the S-51 was finally hauled to the surface, all the wrecking crew, men and officers, yelled themselves hoarse in wild delight and threw their caps

He hit the higher places and missed the gossip tales which bring smiles to the faces of mortals, dames and males. His book's a stately pageant, but doesn't tell about the grocer or his agent who sold the Romans kraut. The centuries are taken as background for his tome and so he has forsaken the soft-drink joints of Rome. He has no time for twaddle about the movie shows or Henry's latest model or homely things like those. Now history is fashioned in manner quite sublime; historians impassioned take ten years at a time. The corners and the angles they've time now to explore, to follow up the wrangles that fussed our dads of yore; to show how dudes and friskers put bear's grease on their hair and show what sort of whiskers our granddads used to wear. We're shown how uncle sported thick, woolen, home-made socks and how our aunts cavorted in gowns that swept the walks. Sorority Party on Convention Trip Due Here

One hundred or more members of Kappa Kappa Gamma Sorority are due to arrive in Los Angeles tomorrow morning in special cars routed by the Southern Pacific on their return from the Kappa Kappa Gamma convention at Mills College near Oakland. While here they will be guests at the Hollywood Plaza Hotel.

Other visitors to the convention went to Seattle on their return trip to homes in the East, and others will visit Yosemite and Tahoe and come to Los Angeles late in the month. Sightseeing trips are planned for the delegates arriving here, trips to the studios and a luncheon at the Casa Del Mar Beach Club on Saturday. Reservations for the luncheon are being made by Mrs. Harry Cupit, 359 South Manhattan avenue.

ZANE GREY'S WIFE AWARDED POULTRY

Fither E. S. Milligan wil, have to return about 6000 hens, pullets and roosters to Mrs. Lina Elias Grey, wife of Zane Grey, the author, or he will have to pay her \$4376.50 in lieu therefor under a decision handed down yesterday by Judge Hanby. Mrs. Grey asserted the poultry was her property but that Milligan had it in his possession on a chicken ranch near Lankershim. She asserted he had declined to turn the chickens over to her on demand, so she brought an action in claim and delivery. Milligan did not contest the suit.

Unflattering critics are cruel—and very ignorant—monsters!

There is no person so unhappy in all the world as the famous theatrical or musical celebrity whose praise is falling off. He (or she) may be handsome, rich, and far-famed, but if the applause did not last long enough, or was not loud and pronounced enough after he has done his stuff, he is utterly wretched. at Trade Show

The popularity of the theatrical, musical and writing professions is due to the fact that they offer such an excellent opportunity to "show off."

Which is also the reason why so many of us get swelled-headed. So hard not to get "spoiled" when one earns one's living by showing off. Fancy being encouraged to show off, praised for showing off. Of course we love it—and feel superior for being allowed to profit by it.

The theatrical profession comes off best of all. They and the musicians come in contact with the direct applause. So very, very few ways of earning one's living that occasion exuberant hand-clapping and bouquets and flattering notices in the new-papers next morning.

TOLD AT HEARING

From building model boats to the presidency of a steamship line was the step taken recently by Roscoe W. Good, 22 years of age, it was disclosed yesterday at a hearing before Deputy State Corporation Commissioner Haas.

As president of the California Yacht Line, Inc., young Good sought permission to sell \$300,000 worth of stock to the public and issue an additional \$200,000 worth of stock to the public and issue an additional \$200,000 worth of stock to the public and issue an additional \$200,000 worth of the security to himself for his interest in the promotion of the enterprise. De luxe tours of Alaska, the South Seas, and around the world, for fifty passengers on an exclusive steam yacht are the proposed plan of operation, according to the testimony. All cruitises will start and end at Los Angeles Harbor, it was stated.

During the last seven years, including the time he spent in high school, Good and his brother have been profitably engaged in making model boats, according to Deputy Hans.

Decision was reserved.

W. S. Van Dyke, veteran director of western pictures, has been assigned to direct Col. Tim 'McCoy, M.-G.-M.'s western star, in his screen debut, which also marks the studio's initial step in the invasion of that particular film field,

Van Dyke who has just returned to California following a trip to the Northwest, where he directed "Eyes of the Totem" and "The Raw Country," has been connected with screen and stage since his birth. His first appearance on the ctage was as a child in arms, and he was cradled in a theatrical trunk as his mother, Laura Winston, toured the country. He was playing leads and heavies on the stage when he joined D. W. Griffith in 1915 as a assistant and actor. Following two years of acting he became a director with Essanay.

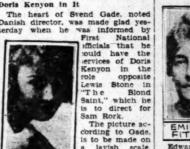

The title of the first western starring McCoy has not been selected but it is an original and will be made at Co.. McCoy's Wyoming ranch near Fort Washakie.

REINHARDT TO SPONSOR "MIRACLE"

Practical Assurance That Great German Genius of Stage Will Come Here

that Max Reinhardt personally will sponsor the production of his great stacle, "The Miracle," in Los Anles next January.

spectacie. The Miracle, in Los Angeles next January.

Virtual assurances of the presence of the German genius of the stage are contained in advices received by L. E. Behymer, impressite of music and stage attractions, yesterday.

This will mean the first visit to the Coast of a man who has long been regarded as one of the most noted international figures in the realm of the theater.

Plams were made for the production of "The Miracle" some several months ago at a meeting of cruc leaders, at which Morris Gest of Comstock and Gest, the producers of the great semireligious spectacle in this country, was present, Arrangements were then practically completed to present it here at Shrins Auditorium, which will be transformed into a church-like edifice for the occasion, as is the custom in presenting this famed attraction.

The nesotiations with Reinhardt.

custom in presenting this famed attraction.

The negotiations with Reinhardt himbelf have been carried on since then, and the plan of having him here has reached practical fulfillment, tolliving active efforts on the part of Mr. Gest and Mr. Behymer.

Several of the former associates of Mr. Reinhardt in his productions abroad are at present in Hollywood singaged in motion pictures, notably grass Lubitsch, who appeared in many of the drams presented under his direction. F. W. Murmau, who arrived in this country to direct for the Fox Pilm Corporation, was also associated with Reinhardt.

The production of "The Miracle" is one of the most elaborate ever given, and achieved a notable success on the eccasion of its premiere in this country in New York several years ago. The production requires a cast of several hundred persons and a huge and pretentious scenic investiture. It has been regarded as unique as a religious spectacle ever since it was first given abroad under the Reinhardt direction.

necessary and should be voted by the people in order to maintain an adequate water and electric power supply, was declared yesterday by W. T. Bishop of Bishop & Co. and former president of the Los Angeles Chamber of Commerce.

"I have studied quite thoroughly, I believe, the plans of the Water and Power Bureaus which, it is proposed, are to be carried forward by investments from the proceeds of the \$10,00,000 water bond issue and the \$11,000,000 power bond issue," stated Mr. Bishop.

be authorised by the people at the primary election.

"Proceeds from the bonds are to be used to finance additional water and hydro-electric power development along the Owens River Aqueduct, and to construct additional facilities for the handling of these supplies. This work, I am convinced is essential to the maintenance of adequate and reliable water and power service on the municipal water and power systems in Los Angeles.

"I am in favor of the two bond tasues; they should be voted."

The proposed water and power bond issues were indexed yesterday in a resolution of the board of directors of the Downtown Business Men's Association. The resolution points out that retirement funds and interest charges will be paid from earnings and the issues will in no way affect or increase taxes.

THEY WERE FAMOUS

Three actresses who were famous on screen and stage a dozen years go have been engaged for minor roles in "Twinkletoes," Colleen new-est picture for First National. They are Frankle Balley, whose "million-dollar" legs were widely exploited;

Florence Lawrence, once more famous series of talks which will be a feature of the theater schedule during the coming year. Those who will present these talks are the men and women interested in California from a literary, artistic or theatrical standpoint, who have gained recognition in their line of work.

Mr. Johnson is responsible for the stage currain in the theater, the entire space of which is devoted to a painting of the Donn'er party crossing the Sierras.

He likes California so well that he has bought a home in Alhambra and is now putting the finishing touches to his studio, which his friends declare will be one of the most unsual in Southern California. To aid business concerns to establish themselves on a sound legal and financial basis is the principal function of the State Corporation Department, E. M. Daughterty, State Corporation Commissioner, told the members of the Etwanis Club at their weekly luncheon at the Biltmore yesterday. Mr. Daugherty, who was the only speaker, answered the question be said is often asked as to what constructive work the State Corporation Department does.

A large part of the public labors under the error that the Corporation Department does.

Character in the thirty-sight or more states where they are in force and had come to the conclusion that this State has a fairly good law.

Charges in the law have been discussed from time to time," he discussed from time to time," he added. "Before the last Legislature met a group of investment bankers made an investigation with the idea of sdvocating a fraud act as a substitute for the present law. They denote by the department is to advise business men how to avoid numerous pitfalls in handling their affairs.

"As a matter of fact, the number of men who go into business with fraudulent intent is small. I should say that in ninety-nine out of 100 of the cases that come up for consideration by the department the irregularity that may be presented is not the result of fraudulent intent but rather of ignorance of the law, with whose provisions the persons concerned are usually perfectly willing to comply when those provisions are pointed out to them."

The principal aid rendered promoters of business ventures by the department is the advice it is able to furnish as to the proper legal and financial set-up of any proposed business organization in order that it may comply with the provisions of the law, Commissioner Daugherty said.

Box 50. State of the control of th Candidate Spares None in San Pedro Speech Opponents Accused of Seek ing Favor of Capitalists

Newspaper Publishers Also Object of Attack

Rex B. Goodcell, candidate for the od on the humpers of an auto-San Pedro, last night and banged Gov. Richardson, Senator Johnson Lieut.-Gov. Young, Harry Chandler Atty. John J. Monshan, denounced an "iniquitous oligarchy of news-papers" which had controlled the State for a score of years and de-ciared he is suffering from a con-spiracy of silence. There are no powerful interests behind him, he

asserted.

Gov. Richardson he denounced as the tool of Harry Chandler and the Southern Pacific. He charged Chandler with blocking Colorado River development in the interests of his holdings below the line, where Japanese and Chinese labor might be utilized.

YOUNG COLLARED

Young, he continued, wore the triple collar of Hearst, Hiram Johnson and Kent Parrot. He said he had once supported Johnson but resented his coming into the State to interfere in the gubernatorial race, with the object of having a machine behind him when he seeks re-nomination in 1928.

Gov. Richardson, Goodcell declared, had pleased only the public utilities. Young was branded a parior Socialist, Neither has had a constructive thought in all their years of political office-holding, he said.

When Goodcell finished, a voice in the crowd expressed the pessimistic thought that Richardson and Young may be tools of capitalism now but that Goodcell would be the same if he got into office. The candidate motored away without argument.

ADDRESS AT BILTMORE

ADDRESS AT BILTMORE

ADDRESS AT BILTMORE

Goodcell yesterday addressed 200
persons at a luncheon at the Biltmore under the auspices of the
Young Men's Republican League of
Los Angeles.
He charged that Hearst, New York
Democrat, is seeking through the
election of C. C. Young to control
the Republican party machinery for
the purpose of maintaining the factional fight in the Republican party
in order that he may dictate the party's action in California in 1928 as in order that he may dictate the party's action in California in 1928 as was the case in 1918 when California elected a Democratic President.

He said that supporters of the candidacy of Gov. Richardson for reslection are such because of the favors they have received from the present administration and a continuance of which they hope for during the coming four years.

TELLS CITY CLUB

Praising the Swing-Johnson bill as a perfect plan for the development of the Colorado River, Lieut-Gov. Young, in an address at the City Club yesterday, said that practically the only opposition to this project comes from private power interests and "from Harry Chandler, who owns 830,000 acres of soil below the line, where he has 200,000 acres under till-

CLOUDBURST SENDS TORRENTS RACING IN RIVERSIDE DISTRICT

RIVERSIDE, Aug. 4. (Exclusive)—What was described as a veritable cloudburst descended on the San Timoteo Canyon and near-by districts today. For an hour rain fell in torrents. Water, rushing down the sides of the highlands near the foot of the Jack Rabbit Trail, washed dirt and rocks across the county highway, threatened to undermine the pavement, and at a point fifty yards south of the juncture of the trail and the San Jacinto road a shoulder was torn from the pavement and considerable road damage done, according to reports. Workers employed by the Moreno Mutual Irrigation Company on construction activities in the San Timoteo Canyon were forced to abandon activities and seek shelter. Work on the irrigation project orted James, who was in the canyon at the time the storm broke, was precipitation was heavy. James left the canyon as the storm started to the season's precipitation total, P. T. Carter, rancher of Moreno, reported last night. Surrounding highlands were drenched. Showers fell at Bernesconi Hot Springs and Lakeview reported rain. A few

age, and who does not want an allAmerican canal."

Referring to the report of Gov. Richardson's engineering department, Mr.
Young said that report favors "merely the early construction of floodprotection works and even belittles
the danger of flood menace in Imperial Valley. It echoes the opinion
of Chester Allison, engineer, that the
all-American Canal project is unwise,
unnecessary and an all-around error." ARRANGED Service for Sister of Razor Manufacturer Will be Conducted Tomorrow

The committee consists of Harbor Commissioner Soudan. General Harbor Edwards and cone representative each to be named by the Los Angeles Chamber of Commerce, Los Angeles Chamber of Commerce, Los Angeles Relity Board, Ban Pedro Chamber of Commerce, Wilmington Chamber of Commerce and the Merchants' and Manufacturers' Association of Los Angeles. It was pointed out that the policy of the commission has been to charge a flat rate per acre on all land whether it adjoins tidewater or is backland of Frauds in Realty Deals

L. M. Moore and F. M. Lynch, said to have posed as the owners of the Economy Home Builders, late yesterday were convicted in Judge Hardy's court of six out of eight counts charging obtaining money by false pretenses in connection with the promotion of a real estate enterprise near Redondo Beach.

According to the indictment against the men, they represented to prospective purchasers that they owned the tract, their own forests and sawmills in the north and their own furniture factory here. They were said to have promised purchasers a completely furnished home at a very low cost and, according to the State. a fist rate per acre on all land whether it adjoins tidewater or is backland and with or without access to streets and roads.

In the future the rentals will be based on the value of the property, and the duty of the committee is to fix the rentals in the various sections of the Harbor District on the basis of a fair rate of interest on the value of the holdings, it was stated. The committee will use two recent appraisals as a basis for its findings. Before the final committee recommendation is made each representative of the various civic bodies named will be given an opportunity to report back the committee's findings to the organization he represents for its approval.

Murder While Revolver Indicates Suicide

By a "Times" Staff Correspondent PASADENA, Aug. 4.—Mystery surrounds the finding tonight of an unidentified man with his head cov-ered with blood in the foothills above Altadena near the end of Pair Oaks avenue by G. H. Caselotti. Rushed to Emergency Hospita! and later to Passidena Hospital, the man died without gaining consciousness. According to information gathered by Deputy Sheriffs Arctein, Smith, Luker and Bowen, who are investigating the case from Los Angeles, there is a possibility of suicide, as a small caliber gun with two shells exploded and two which had misfired, was found near the man's hand. A bloody handkerchief, bearing bullet holes and powder stains, was also found near the body.

No mark of identification was found on the body other than a few addresses. A small prayer book tearing rambling notations was found in the man's pocket together with a small amount of change,

After finding the man, Caselotti summoned Ted Speers, 3074 North Fair Oaks avenue, and the two men summoned police.

At the hospital it was learned the man had suffered a severe skull fracture, indicating he had been beaten to death.

An autopsy and a Coroner's inquest will probably be held Friday, accord.
